

# ART AND DESIGN INTENT

## CURRICULUM INTENT

At Hucknall National, we intend to provide a broad and creative curriculum that develops artistic vocabulary and empowers children to express their own ideas and thoughts creatively. We provide various memorable experiences that allow our pupils to develop and extend their skills and understanding of art and design. By studying a range of artists, we explore various techniques and take inspiration from a variety of cultures to demonstrate how art can be expressed through many forms. We aim to give every child the confidence to be an artist and to express themselves creatively through an exciting and progressive curriculum.

## CURRICULUM AIMS

Our three priorities in the teaching of Art are:

1. To encourage and inspire children to build upon their natural creativity and stimulate them to express their own individual thoughts and ideas.
2. To teach the children specific artistic knowledge, skills and strategies using a range of resources.
3. To teach children to value art in all cultures, throughout society and in everyday life.

## CURRICULUM CONCEPTS

Communication

Composition

Comprehension

*“The true work of art is but a shadow of the divine perfection.”*
