<b>Section 1</b> The coronavirus is transmitted in school.	Pupils and staff contract COVID-19 and may become seriously ill or die. Asymptomatic testing indicates pupils and staff have COVID-19 and self-isolation impacts on pupil education and wellbeing, staff self-isolation impacts on their	1. Ensure good hygiene for everyone – Hand hygiene and Respiratory Hygiene. 2. Maintain appropriate cleaning regimes. 3. Keep occupied spaces well ventilated. 4. Follow public health advice on testing, self-isolation and managing confirmed cases of COVID-19.				1. Hand sanitizers will be available around the site and at entrances. Pupils, staff and visitors will be reminded of the importance of good handwashing habits. Catch it, Kill it, Bin it will continue and lidded bins are used for tissues. <a href="#">Posters and resources</a> Signage will be displayed and maintained. 2. Maintain appropriate cleaning regimes, using standard products such as detergents, include regular cleaning – twice a day – with a particular focus on frequently touched areas. PHE has published guidance on the <a href="#">cleaning of non-healthcare settings</a> .	SB G E	O ng oi ng	O ng oi ng			

	wellbeing and pupils' education.					<p>3. Spaces to be well ventilated, particularly when events involved visitors and spaces are used to capacity. Ventilation to be balanced with temperature and fire safety requirements.</p> <p>4. Pupils, staff and visitors should not come onto site if they are experiencing <a href="#">symptoms (see appendix 1)</a> or have had a positive lateral flow test. They should isolate in line with PHE advice and get a PCR test. Signage to be displayed and maintained at all entrances and visitors asked if they are experiencing symptoms when they sign in.</p>						
<b>Section 2</b> CEV pupils and staff	Staff and pupils with underlying health conditions contract COVID-19 and become seriously ill or die.	Individual risk assessments completed				<p>See individual risk assessments. <a href="#">Individual risk assessments</a></p> <p>Individual risk assessments to be reviewed when there is an outbreak in the academy or local or national restrictions change.</p>	SB JB	01 /0 9/ 21	O ng oi ng			
<b>Section 3</b> Pupils and Staff have been in contact with a positive case	Coronavirus is transmitted in school causing people to become seriously ill or die	Academies keep a record of the contact details for all visitors to the site for 10 days. Academies know which staff and pupils are on site at any one time.				Academies where necessary will assist NHS test and trace in the event of contact isolation being necessary.	SB	01 /0 9/ 21	O ng oi ng			
<b>Section 4</b> Asymptomatic testing	Coronavirus is transmitted in school causing people to become seriously ill or die	Staff in all academies are encouraged to undertake twice weekly testing. Pupils in secondary academies are encouraged to undertake twice weekly testing.				When advised prior to the start of term secondary academies will establish an asymptomatic testing site and require 2 negative, on site tests before pupils return to school. See <a href="#">Asymptomatic Test Risk assessment</a> .	SB	01 /0 9/ 21	O ng oi ng			

<p><b>Section 5</b> Visitors to the academy</p>	<p>Coronavirus is transmitted in school causing people to become seriously ill or die</p>	<p>Visitors will be asked if they are experiencing any symptoms when they arrive at the school. Signage is displayed at all entrances with this information. Visitor badges and lanyards are only used once and then stored for at least 48 hours.</p>				<p>Visitors will not be allowed onto site if they are experiencing <a href="#">symptoms</a> or have had a negative lateral flow test. They should isolate in line with PHE advice and get a PCR test. Signage to be displayed and maintained at all entrances and visitors asked if they are experiencing symptoms when they sign in. Signing in and out areas are regularly clean to reduce cross contamination. Contact details of visitors will taken kept for 10 days to assist NHS Test and Trace if required.</p>	SB N M	01 /0 9/ 21	O ng oi ng			
<p><b>Section 7</b> Pupils with symptoms</p>	<p>Coronavirus is transmitted in school causing people to become seriously ill or die</p>	<p><a href="#">Symptomatic Pupils</a> will be moved to an isolation room until parent arrives for collection or permission is gained for them to travel home (secondary) The following elements <b>MUST</b> be included:</p> <ul style="list-style-type: none"> <li>• A room with a door that can be closed (medical room).</li> <li>• Supervision provided for student(s) in the isolation area.</li> <li>• A window available and opened for ventilation.</li> <li>• Access to a separate bathroom (in case needed whilst awaiting collection).</li> <li>• An exit route – enabling symptomatic students to leave site with parents without re-entering the main Academy building.</li> </ul>				<p>Staff developing symptoms on site should return home immediately, seek a PCR test and isolate in line with PHE advice. Pupils developing <a href="#">symptoms</a> on site should be sent home immediately and isolated while waiting collection. They should seek a PCR and isolate in line with PHE advice. The household, including any siblings, should follow the PHE stay at home guidance for households with possible or confirmed coronavirus (COVID-19) infection.  Blue Room to continue to be used as the isolation room.</p>	SB Of fic e st af f	01 /0 9/ 21	O ng oi ng			

		<ul style="list-style-type: none"> <li>• A cleaning regime to prevent cross contamination between individuals required to use the isolation area (and bathroom (if used)).</li> <li>• Signage displayed to indicate the isolation area advising “no entry”.</li> </ul> <p>If it is not possible to isolate individuals, they <b>MUST</b> be moved to an area which is at least 2m away from other people.</p> <p>When a child becomes unwell and a supervising a distance of 2m can’t be maintained within the isolation area, the following PPE <b>MUST</b> be worn:</p> <ul style="list-style-type: none"> <li>• A fluid-resistant surgical face mask, in which case the child <b>MUST</b> be supervised at all times.</li> </ul> <p>If contact with the child is required then the following PPE <b>MUST</b> be worn:</p> <ul style="list-style-type: none"> <li>• Disposable gloves</li> <li>• Disposable apron</li> <li>• Fluid-resistant surgical face mask</li> </ul> <p>If there is a risk of fluids entering the eye (e.g. coughing, spitting or</p>

		<p>vomiting), then PPE <b>MUST</b> be worn:</p> <ul style="list-style-type: none"> <li>• Disposable gloves</li> <li>• Disposable apron</li> <li>• Fluid-resistant surgical face mask</li> <li>• Eye protection (e.g. face visor or goggles)</li> </ul> <p>If the need for PPE is required, then staff must be trained in the safe putting on and removal of items.</p>									
<p><b>Section 8</b> Educational detriment to pupils not in school full time</p>	<p>Children will experience a negative impact on their education as a result of them needing to isolate due to a positive test. NB. This only applies to asymptomatic cases, pupils who are unwell should not be expected to work at home.</p>	<p>Full time provision of work and live lessons to be provided to those asymptomatic pupils with a positive test.</p> <p>When necessary, pupils will be provided with technology in order to access remote learning</p>			<p>Remote education resources to be uploaded to Google Classroom every week to allow immediate access to resources.</p> <p>Office staff to inform teachers via email of any pupils who are isolating. Office staff to email information to parents about how to access remote education. Office staff to check if pupils have access to computer equipment and inform NM if a laptop is required.</p> <p>Remote education can also be delivered through Class Dojo or paper resources delivered home if requested.</p> <p>Class teachers to check via Class Dojo that pupils can access remote education resources.</p> <p>Class teachers to offer live streaming of lessons <a href="#">Remote Learning Good Practice</a></p> <p>If 1-1 online learning this is will be in line with SNMAT agreed protocols. <a href="#">1-1 learning risk assessment Code of Conduct</a></p>	All staff	01/09/21	Ongoing			

<p><b>Section 9</b> Wellbeing detriment to pupils not in school full time</p>	<p>Isolation may have a negative impact on pupils' welfare. The usual safeguarding checks cannot be made.</p>	<p>The academy maintains a list of pupils with safeguarding concerns and uses the SNMAT tiered response for pupils isolating. All pupils are contacted at least once a week to ensure they are safe and well. Meals are provided for pupils in receipt of free school meals.</p>				<p>Jane Brown to be in contact with pupils identified on the tiered response and follow the graduated response. FSM delivery coordinated by Jane Brown. Office staff first point of contact for isolating pupils. Check if they need any welfare/wellbeing support and access to remote education. Pass information onto Jane Brown/Sarah Barratt every morning. Office staff to contact any isolating pupils after 5 days to check wellbeing/access to remote education/additional support required and pass on to Jane Brown/Sarah Barratt. Jane Brown to provide additional support and resources as required to families in need. Contact with pupils monitored daily. <a href="#">Safeguarding and Remote Learning Tiered Response FSM</a></p>	JB SB Of fic e st af f	01 /0 9/ 21	O ng oi ng			
<p>Staff wellbeing Isolation has a detrimental impact on staff wellbeing</p>	<p>Isolation and working from home may impact negatively on staff mental health and sense of wellbeing</p>	<p>Ensure staff know who they can raise concerns with regarding their own wellbeing.  Regularly canvas and communicate with staff to determine needs/feelings.</p>				<p>Regular contact from headteacher. Jane Brown to support staff as required. Staff wellbeing group. Staff who are unwell are not expected to work from home.</p>	SB JB	01 /0 9/ 21	O ng oi ng			
<p>Educational visits</p>	<p>Changes to local and national guidance results in the cancellation of trips.</p>	<p>Visit risk assessments will be conducted. Visits will be carried out in line with the academy risk assessment and the risk assessment of the venue.</p>				<p>New bookings must have adequate financial protection in place – insurance cover is checked for each booking. The <a href="#">travel list</a> for will be monitored for changes, as will the restrictions in place in other countries. International visits will not be made to red list countries.</p>	All st af f	01 /0 9/ 21	O ng oi ng

## Appendix 1

### COVID-19 Symptoms (NHS, 15.7.2021)

Main symptoms of coronavirus (COVID-19)

The [main symptoms of coronavirus](#) (COVID-19) are:

- **a high temperature** – this means you feel hot to touch on your chest or back (you do not need to measure your temperature)
- **a new, continuous cough** – this means coughing a lot for more than an hour, or 3 or more coughing episodes in 24 hours (if you usually have a cough, it may be worse than usual)
- **a loss or change to your sense of smell or taste** – this means you've noticed you cannot smell or taste anything, or things smell or taste different to normal

Most people with symptoms have at least 1 of these.

If you have any of the main symptoms of COVID-19, even if they're mild:

Risk Definitions	
<b>Low</b>	Controls are adequate, no further action required, but ensure controls are monitored and any changes reassessed.
<b>Medium</b>	Consideration should be given as to whether the risks can be reduced using the hierarchy of control measures. Risk reduction measures should be implemented within a defined time periods. Arrangements should be made to ensure that the controls are maintained and monitored for adequacy.
<b>High</b>	Substantial improvements should be made to reduce the level to an acceptable level. Risk reduction measures should be implemented urgently with a defined period. Consider suspending or restricting the activity, or applying interim risks controls. Activities in this category <b>MUST</b> have a written method statement/safe system of work and arrangements <b>MUST</b> be made to ensure that the controls are maintained and monitored for adequacy.

1. Get a PCR test (test that is sent to a lab) to check if you have COVID-19 as soon as possible.
2. You and anyone you live with should stay at home and not have visitors until you get your test result – only leave your home to have a test.

Anyone in your childcare or support bubble should also stay at home if you have been in close contact with them since your symptoms started or during the 48 hours before they started.

### Coronavirus (COVID-19) symptoms in children

Children can get coronavirus (COVID-19), but they seem to get it less often than adults and it's usually less serious.

The main symptoms of COVID-19 are:

- a high temperature
- a new, continuous cough – this means coughing a lot, for more than an hour, or 3 or more coughing episodes in 24 hours
- a loss or change to sense of smell or taste – this means they cannot smell or taste anything, or things smell or taste different to normal

### What to do if your child has symptoms

If your child has any of the main symptoms of COVID-19, even if they're mild:

1. Get a PCR test (test that is sent to a lab) to check if they have COVID-19 as soon as possible
2. You, your child and anyone else you live with should stay at home and not have visitors until you get the test result – only leave your home to have the test.

Anyone in your childcare or support bubble should also stay at home if your child has been in close contact with them since their symptoms started or during the 48 hours before they started.

Information on how to access PCR test can be found [here](#) .
