

Reading Progression Hucknall National C of E Primary School

The ability to communicate is a fundamental part of life. Developing literacy skills (speaking, listening, understanding, reading and writing) enables children to play a positive and active role in their communities. Equipped with these skills, they can find meaning and participate fully in life's rich opportunities, developing self confidence, well-being and the ability to form positive relationships.

Our Reading curriculum is at the centre of all our practice. There is an unwavering consensus that reading is the key to all learning. In the early years, our focus is on oral language development and comprehension. We aim to develop children's understanding of language and their spoken vocabulary through real-life, meaningful experiences. We know that those who develop a strong oral language skills in the early years will learn to read well. As children develop, we ensure that high quality shared and guided activities continue to accelerate their progress, especially those entitled to the Pupil Premium and those in need of SEND support.

We consider reading to be a crucial aspect of our curriculum and we aim to instil a love for reading that will remain with our children throughout their lives. We want to equip children with the skills and knowledge necessary for reading through discussion, a systematic teaching approach and regular exposure to high quality literature.

It is our intention that through our reading curriculum, our children will have opportunities to develop spiritually, culturally, emotionally, intellectually and socially. There is a strong link between disadvantage and poor reading skills. At Hucknall National we aim to provide equal access and opportunity to reading for every single pupil, regardless of their background in the knowledge that the richness of a child's vocabulary is a proven indicator of greater life choices. We have a moral duty to support our pupils to develop their reading skills and a love of reading in a safe environment, allowing them to develop the confidence to become successful language users.

How is reading taught at Hucknall National?

Phonics

We teach word reading through daily Read Write Inc. phonics sessions in both Reception and Key Stage One. By the end of Year 1, it is our expectation that all children will have been taught the skills needed to enable them to read widely and with fluency and that they will use their blending and segmenting skills to help them tackle unfamiliar words. These skills are assessed in June of Year 1 by the National Phonics Screening Check. Phonics sessions are still taught on a daily basis in Year 2 as we believe that children still need to practice these skills to be able to read fluently. Pupils who do not reach age related expectations by the end of each half term receive additional interventions and there are also phonics interventions that take place across Lower Key Stage 2 where needed. All of our teachers in Reception and Key Stage 1 have received Read Write Inc. training and the whole staff have regular training sessions on phonics as we believe that all the staff need to have a strong understanding of how children learn to read. Key staff in Year 3-6 have Read Write Inc training and some are trained to deliver specific phonic interventions (Fresh Start).

Phonics sessions are informed by regular assessments and planned systematically using the Read Write Inc. scheme of work. Children learn the alphabetic code: first they learn one way to read the 40+ sounds and blend these sounds into words, then learn to read the same sounds with alternative graphemes. Books are closely matched to their increasing knowledge of phonics and 'tricky' words and, as children re-read the stories, their fluency increases. There are lots of songs, rhymes and games to support the delivery of teaching and learning. Teaching Assistants are trained to deliver small group phonics and phonic interventions alongside the class teacher. There is also a focus on the application of phonics to read words in guided reading sessions, which build up in length and depth over time.

Guided Reading – Reception and Key Stage One

Guided Reading is taught through paired reading as part of the Read Write Inc. lesson from Reception and throughout Key Stage 1. Children are grouped according to their reading ability and the text is carefully chosen to match their colour level. These sessions are led by a teacher or teaching assistant and are used to develop the children's comprehension and understanding of texts. This is then progressed to children accessing the Complete Comprehension scheme as a whole class, in small groups and then independently in order to acquire specific reading comprehension skills.

Development of Reading into Key Stage 2

All pupils are assessed at least termly on their reading ability. As pupils progress, they continue accessing Complete Comprehension and start to access additional reading programmes of Accelerated Reader and Hooked on Books.

In Key Stage 2, all pupils access a daily comprehension and guided reading session based on Complete Comprehension and Hooked on Books. These are implemented on the three-week cycle; two weeks are using Complete Comprehension where teachers are able to target specific gaps of knowledge in skills and then one week following Hooked on Books in which children are able to develop their extended answers and understanding. They also access Accelerated Reader at least once a week in school. These are progressive schemes that allow pupils to build up their reading skills, comprehension and analysis of texts over time.

Some pupils in Key Stage 2 still access phonics and reading interventions to continually develop their word reading skills and fluency.

Complete Comprehension

At Hucknall National Primary School, reading is taught through a combination of Complete Comprehension and following Jane Considine's Hooked on Books pedagogy. Complete Comprehension offers pupils the opportunity to gain a range of skills required to be successful when comprehending and engaging with texts. It uses a range of genres in the form of short texts and extracts to teach the following skills: word meaning, retrieval, sequencing, inference, prediction, relationship, word choice and comparison. Each week, the children have 'Book Talk' lessons that prompt discussion around the context of the text, make connections with their own experiences and fully understand the range of vocabulary the text contains. During these lessons, they are encouraged to read the text several times to develop their fluency. They are modelled a specific skill by their teacher in one of the lessons and then they answer their own set of questions either independently, in a small group or following the lead of their teacher. There is also opportunity for reconsolidation of skills on a weekly basis with the 'Mix it up' which provides a range of questions based on the text they have been studying. Complete Comprehension is also used for interventions to target specific gaps in the knowledge of reading comprehension skills.

Complete Comprehension
Key Stage 2 Skills

Schofield&Sims

Word meaning
Read around the target word to see how it is being used in the text.

Retrieval
Touch the answer in the text before you fish it out.

Summarising
Find and talk about the text's main points.

Inference
Use clues from the text and your own ideas to work out the answer.

Prediction
Decide what is most likely to happen next in the text.

Relationship
Talk about the structure of the text.

Word choice
Talk about the effect of words and groups of words used in the text.

Comparison
Compare the events, characters and structure of the text.

Remember

- Read the whole question carefully.
- Find the key words in the question.
- Look for key words from the question in the text.
- Check that your answer matches the question.

For use with Complete Comprehension © Schofield & Sims Ltd, 2019

Hooked on Books

Hooked on Books' programme is in line with current National Curriculum expectations and encourages the discussion of rich texts.

During our guided reading sessions, the children engage in a vocabulary rich timetable which nurtures their love of reading. In Book Talk, children discuss the texts they are reading through different lenses of the reading rainbow. Children use the 'Reading Rainbow' to read and respond to texts through different lenses within 3 different zones of reading: The Fantastics, The Stylistics and The Analytics. These reading lenses are also incorporated as challenges during the Complete Comprehension weeks. Book Talk is key to developing oracy skills. Children collaborate in pairs or groups using sentence stems and high utility words to develop a Book Talk response.

Accelerated Reader

Accelerated Reader is an electronic resource which can be used in school or at home to provide additional guidance for our pupils with their reading. It uses engaging quizzes and activities to help hone our pupils' reading skills with authentic practice to encourage growth in knowledge and comprehension. Guide - personalised goals help students stay focused on the factors that matter most for reading growth and help teachers monitor their progress and provide feedback to keep learners on track. Engage - individual reading recommendations use students' interests and reading levels to suggest "just-right" titles or pupils can self-select their own choice. Practice - transforms high-quality reading practice that fuels growth. Reading quizzes monitor comprehension, while literacy skills and vocabulary quizzes extend student learning and build skills and mastery. Grow - detailed reports provide teachers with insights into students' progress.

Reading at Home

Parents can help their child to sound out the letters in words (this is called 'Fred Talk') and then to 'blend' the sounds together to make a whole word. Letter names are not referred to. They help their child to focus on the sounds. A useful website for hearing how sounds are formed is found on YouTube - 'Read Write Inc. Phonemes Pronunciation Guide'. https://www.youtube.com/watch?v=5J2Ddf_0Om8&t=15s

Books are introduced in Foundation Stage as soon as they are settled into the school routines. These books go home for sharing. A reading and phonics evening for Foundation parents is delivered at the start of the academic year and a Phonics leaflet is made available.

All pupils have two books that they can take home to read. One book is selected by the teacher, based upon assessment, phonic knowledge, fluency and vocabulary. This is a book that the pupil can read and comprehend independently. Books are checked regularly across the school to ensure that this book is accessible independently for the child.

Every child takes home a reading book each day for practise at home and is expected to read a minimum of five times per week. Children that are following the Read Write Inc phonics scheme (Early Years & Year 1 and identified children in Years 2-6) are allocated a book each week that is matched to the phonic sounds they have been taught in class. The book is for the child to read to an adult to practise and embed the phonic sounds being learned in class. Closely matched books ensure that all children use their emerging decoding skills and experience high rates of success. Children that have completed the Read Write Inc programme are supported to choose a banded book.

Personal choice/listening book – all pupils also have a book of their own choice to enjoy. This can be a listening book that they read with their parent and carer at home or one that they have chosen and can still read by themselves. This book does not have to be accessible independently and should be shared with an adult. These books can be accessed from the class library, weekly visits to the school library, termly visits to Hucknall Library or a book that they have from home.

These are in addition to the quality texts shared in all classes as part of class novel/story time where staff share a wide range of quality texts.

Home reading records are used by class teachers to monitor home reading. In Early Years and KS1, parents are asked to note the page number and initial in the home reading record each time their child has read at home. In KS2, children are asked to record the pages read/next page number and add a simple comment or summary about what has been read.

Reading for Pleasure

Every class in school has story or class novel time. These books have been chosen to ensure our children have access to quality texts at a level beyond that which they can read independently. By sharing the very best books together, we aim to develop a deep love of reading. Texts are chosen and reviewed regularly to ensure our children see themselves in books, to introduce new hopes and aspirations, as well as to explore characters and themes that they may be less familiar with.

Pupils visit the school library once a week. This is a special time to share a text with the class teacher and to choose and become immersed in a book themselves. The children use the library system to check books in and out school so that they can enjoy their books at home too.

There are termly visits to Hucknall Library to encourage our pupils to develop reading skills for life. This allows our pupils to access an even wider range of books, to listen to stories from different people in the community and to develop independent reading habits and skills for life.

Novel Study

At Hucknall National we believe that books open doors into new and exciting worlds. We use high quality novels and picture books as stimuli to enrich our curriculum, extend our children's experiences and build cultural capital. Novel Study is a holistic text-led approach to teaching reading and writing skills through the main English Curriculum. It is both challenging and encouraging for all children as it is based on providing first hand experiences and deep exploration of texts and the themes within them.

Novel Study aims to: foster an enjoyment of reading and literature; develop children's communication in all forms, including oracy and language; heighten imagination – the ability to think, reflect and grow morally, socially and cognitively; build deep analysis skills and create a safe place for children to express their inner most thoughts.

Our wider curriculum is based upon reading and topic themes are developed from texts. Planning starts with the class text and allows pupils to explore themes and topics so that they are not simply learning unrelated facts but developing deeper knowledge and understanding. Where possible, every class has a text linked to their main topic theme for the term. Through this text, pupils are able to immerse themselves in their novel and the themed topic which they are studying which develops and supports our knowledge-based curriculum, allowing for deep analysis based on a range of knowledge and experiences. English lessons are led through the class novel which enhances the development of both reading and writing.

Progression

If a child is making little or no progress after an assessment window (this can be in any term), the teachers seek advice from the English Lead, the SENDCO, and other professionals in or out of the school. In addition, a child might be making progress in reading, but in a teacher's professional judgement, they believe the child may have specific learning difficulties, for example dyslexia. In such cases, teachers seek advice from the above professionals.

Encouraging Reading

Pupils are encouraged to read through a range of reading rewards, including reader of the week, reading millionaires, national readathon, library visits and teacher demonstrations. We believe that it is important to celebrate the successes that children have made in their reading. Each term there will be a 'Reading Champion' nominated from each class who receives a book of their choice as a gift. We also celebrate reading in our FAB assembly every week with our 'Book Worm' award.

Assessment

At Hucknall National, we use assessment in reading as a tool to inform our teaching and target our interventions so that all pupils are given the tailored support they need to become a successful reader in line with the Simple View of Reading. We use RWI assessments on a half termly basis for all children who are on the programme from EYFS through to UKS2 so that gaps in knowledge of sounds are picked up on quickly and children are on the phonetically appropriate book band. On a termly basis, we use NFER assessment papers to gain an understanding of the children's comprehension skills and adapt our teaching in response to this.

Reading Progression

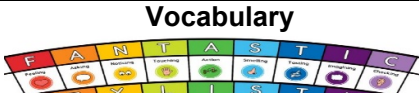

Pupils develop their reading skills through a systematic synthetic phonics scheme (Read Write Inc) to develop their word reading skills and fluency. This then develops into their comprehension skills, which is supported by Complete Comprehension and Jane Consodine's 'Hooked on Books' reading scheme, which progressively develops the ability to talk about, analyse and use evidence to discuss high-quality texts. The reading rainbow is used to allow children to look at texts through different lenses to build vocabulary, comprehension and analytical skills.

	 Vocabulary		 Analysis	
	 Comprehension			
	Word Reading	Fluency	Book Talk	Analysis
EYFS	<ul style="list-style-type: none"> - Link letters to sounds. Say a sound for each letter in the alphabet and at least 10 digraphs. - Hear and say initial sounds in words. - Use phonic knowledge to decode regular words and read accurately. Read some common exception/irregular words. 	<ul style="list-style-type: none"> - Show interest in illustrations and print in books and the environment. - Look and handle books independently. - Know that print carries meaning and is read from left to right and top to bottom. - Ascribe meanings to marks they see. - Read words consistent with their phonics knowledge by sound-blending. - Read aloud simple sentences and books that are consistent with their phonic knowledge, including some common exception words. - Use the environment and non-fiction books to develop new knowledge and vocabulary. 	<ul style="list-style-type: none"> - listen to stories with increasing attention and recall. - Begin to be aware of the way stories are structured. - Describe main story settings, events and principal characters. - Follow a story without pictures or props. - Demonstrate understanding when talking with others about what they have read. - Recall and sequence key events, some as exact repetition, some in their own words. - Know that some texts are more interesting or enjoyable than others. - Compare simple texts 	<ul style="list-style-type: none"> - Listen to stories, accurately anticipating key events and phrases and respond to what they hear with relevant comments, questions or actions. - Suggest how a story might end. - Answer 'how' and 'why' questions about their experiences and in response to stories or events or the environment.

	 Vocabulary		 Analysis	
	 Comprehension			
	Word Reading	Fluency	Book Talk	Analysis
Year 1	<ul style="list-style-type: none"> - Read aloud phonically decodable texts. - Respond speedily, giving the correct sound to graphemes for 40+ phonemes. - Apply phonic knowledge to decode words. - Know that graphemes can represent more than one phoneme and the context helps the reader to decide the correct pronunciation. Read polysyllabic words containing taught GPC. - Blend sounds in unfamiliar words using GPCs taught. - Read words containing Year 1 suffixes –s, -es, -ing, -ed and –est. - Read words with apostrophes and contractions. Read Year 1 common exception words, noting unusual correspondences between spelling and sound and where these occur in words. 	<ul style="list-style-type: none"> - Re-read books to build fluency and confidence. - Check that a text makes sense to them as they read and self-correct. - Accurately read texts consistent with their developing phonic knowledge. - Sound out unfamiliar words accurately. - Read aloud many words quickly and accurately without overt sounding and blending. - Develop some fluency and expression, pausing for full stops. - Discuss word meanings and link new meanings to words already known. - Know that reading words at a glance and using punctuation to read in phrases, leads to fluent reading. 	<ul style="list-style-type: none"> - Listen to and discuss a wide range of fiction, non-fiction and poetry at a level beyond that at which they can read independently. - Link what they have read or had read to them to their own experiences. - Re-tell familiar stories in increasing detail and consider their particular characteristics. - Identify story language. - Know that to discuss a text the reader needs to listen to others and share their own opinions. 	<ul style="list-style-type: none"> - Find specific information in simple texts. - Ask and answer questions in discussion with the teacher. - Begin to make simple inferences. - Predict what might happen on the basis of what has been read so far. - Begin to understand why things happen, and why a character feels or behaves in a certain way even though it is not written down. - Make simple comparisons of character - Know that language in text differs from spoken language.
