Famous Inven-

William Caxton

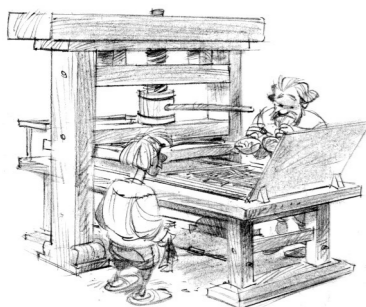

Leonardo Da Vinci

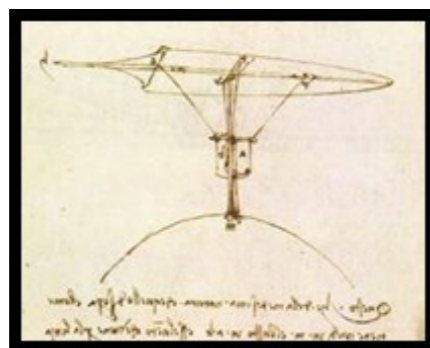

The Wright Brothers

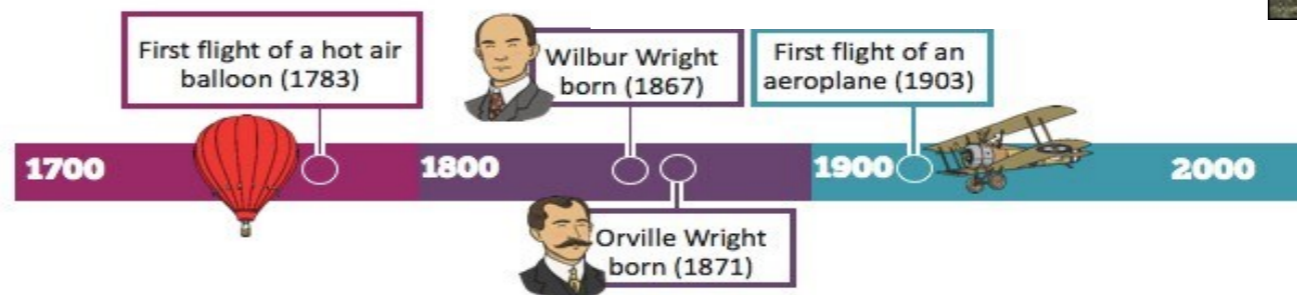

Orville and Wilbur Wright were two brothers, born in America. Their interest in flight began when their father bought them a toy 'helicopter'. They made and sold bicycles but then began to experiment with creating their own flying machine! Their first aeroplane, the Wright Flyer successfully flew in front of 5 people in 1903.

Last term, we learned about the Inventor William Caxton and his printing press.

Here is a technical drawing of Da Vinci's glider.

	Concept	Lesson	Knowledge
1	Chronology	What do inventors do?	I know the names of some famous inventors and can order them on a timeline.
2	Significance Evidence	Da Vinci's Inventions and Technical Drawings	I know about Da Vinci's transport designs and technical drawings.
3	Significance	Who invented the aeroplane?	I know about the lives of the Wright Brothers and the flight of the first aeroplane.
4	Significance	Testing planes with the Wright Brothers	I know the qualities of historic inventors.
5	Chronology	Transport Inventions through time.	I know a range of historic transport inventions and can order them through time.

Key Vocabulary
